Continuation of 11. does NOT place the application in condition for allowance because: Currently, Applicant states in the remarks and amendments filed on 30 June 2010 that instant claim 23 has been amended into an independent claim wherein "The limitations of claim 1 from which claim 23 depends, have been incorporated into claim 23 depends, have been incorporated into claim 23 verbatim." However, as previously stated in the Final Rejection filed 31 December 2009, the prior art of record W. O. 02/057772 (MORETON) discloses an indicating desiccant comprised of copper and bromide sources, and iron (III) salts as a colored material, and that the silica-based material has been impregnated with a source of copper, a source of bromide, and a dye or colored material such as iron (III) salts (lines 18-34 of page 3). MORETON discloses a general purpose indicating desiccant functioning below about 30% and showing a marked color change in lines 9-12 of page 3, and discloses the use of up to 0.5 percent by weight of copper in a silica-based material (line 26 of page 3) used in a desiccant. Furthermore, MORETON discloses the use of iron salts and particular iron salts such as iron (III) sulphate, ammonium iron (II) sulphate, ammonium iron (III) sulphate and potassium iron (III) sulphate in line 34 of page 3 to line 7 of page 4. Regardless of Applicant's amendments and remarks filed on 30 June 2010, instant claims 1 and 4-35 are stand rejected under 35 U.S.C. 102(b) and 103(a) in light of the prior art of record, MORETON - see Final Rejection filed 31 December 2009.
